**COURSE NAME**: Integrated Learning: Digital Literacy

**Course Location**: Daws

**Pathway**: 

This course gives students the opportunity to engage in an entry level Digital Literacy program where students manipulate and evaluate data in ways that are appropriate to their needs. There is a focus on Internet Safety to support transition into responsible and digitally literate young adults for work and life.

**Program Description**: 

Students will develop skills across a range of digital literacy technologies enabling them to understand, and safely apply a number of computer based skills. Students will use multimedia to read and interpret text, sounds and images. Programs such as Microsoft Suite are used to develop understanding of how to access web browsers, search engines, email, text, wiki, blogs, Photoshop, PowerPoint, animation etc. Students will also evaluate online resources for accuracy and trustworthiness of information, using the web to enhance learning.

**SACE Credits**: 10  

**Stage 1**
