**COURSE NAME:** Essential Maths/Integrated Learning: Financial Literacy

**Course Location:** Prospect

**Pathway:**

This course is designed to provide students with the opportunity to meet their compulsory SACE Numeracy component while developing and extending skills in relation to practical and functional numeracy use in everyday life. This subject is relevant for students planning to pursue a career in a range of trades or vocations.

**Program Description:**

Essential Mathematics offers students the opportunity to extend their mathematical skills in ways that apply to practical problem-solving in everyday and workplace contexts. Students apply their mathematics to diverse settings for everyday calculations in financial management, business applications, measurement, geometry, and statistics. In Essential Mathematics there is an emphasis on developing computational skills and expanding the ability to apply mathematical skills in flexible and resourceful ways.

**SACE Credits:** 20
